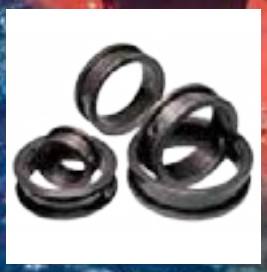
Flex trading
MARINE SPARES AND SOLUTIONS

Flexible Technical Supplier

NEXT PAGE



Flex Trading provides marine and offshore supplies, equipment, spare parts and solutions necessary during dry dock in Poland.

Years of the experience allowed us to understand that marine industry is time sensitive like no other industry and established, tested and proven our company's ability to respond to standard and critical material requirements as quickly as the need dictates. Working to exact specifications and employing experienced technicians, we can plan and prepare proper materials for delivery. This is a cost saving advantage to our customers, eliminating the need for on-site work.

Our main goal is source from ISO certified suppliers and to provide materials approved and certified for marine use by societies like Det Norske Veritas (DNV-GL), Bureau Veritas (BV), Rina, Lloyds Register, American Bureau of Shipping (ABS), etc.

BACK

NEXT PAGE

To keep costs low, we procure materials directly from manufacturers whenever possible. In addition, an international network of suppliers allows us to fulfill any material or parts order.

We know the importance of on-time deliveries, we are committed to offering individualized, professional service to every vessel. Once you work with us you will understand the difference.

Our Mission

- To be available for our customers **24 hours a day**.
- To share our technical knowledge and marine experience with our clients.
- To recognize the importance of on-going communications with our customers to ensure they get the right products **at the right place and the right time**.
- To assist customers in making informed decisions on the products they require.
- To offer products from leading manufacturers to achieve your satisfaction.
- To deliver client's requirements **fast and efficiently**.
- To constantly aware of our clients' greatest concern – **to save time and money**.
- To understand and assist our clients in meeting important work **safety, security, and environmental requirements**.
- To lead our industry by continuously implementing **new solutions and products** to better serve our clients.

Flex logistics

- Smart logistic
- Express delivery
- Fair prices
- Gdańsk
- Gdynia
- Szczecin

As far as you know, it is our main goal to provide our customers (vessels, owners, and vessel managers) with quality products, competitive prices, in shortest possible time.

With years of logistical experience we have established good relationships with freight forwarders and shipping agents worldwide to expedite delivery to your vessel during the dry dock in Poland. Flex Trading strives for complete and on-time delivery. In addition our logistics division enhances our capabilities throughout the world by providing innovative transport & logistics solutions. It maintains flexible and tailor made road and air freight services to cover our customer needs during the dry dock in Poland.

Our business philosophy is just to be always at your side.
